

STATE BUDGET 2008-2009 OUTCOMES for SOCIAL SERVICES

Presented by: Social Policy Unit
Western Australian Council of Social Service
8 May 2008

Overview of WACOSS PBS 2008/09

- Our primary recommendation was that the WA State Government create a social vision by developing a Western Australian Social Inclusion Strategy.
- The WACOSS PBS was written in consultation with approximately 40 organisations across the sector.

Overview of WACOSS Response

WACOSS is most concerned that this budget does not do enough:

- To relieve pressures for 17,000 people on homeless waiting lists,
- To address the rising cost of living in basic goods such as food and transport,
- To support seniors,
- To fund prevention and early intervention to protect children (there has been a 16% increase in the number of kids going in to state care),
- To provide support for drug and alcohol treatment services, To resource the development of a Social Inclusion framework announced by the Premier.
and
- The budget provides for a 4.35% increase in funding to the sector – covers wages, but not services.
